Database Systems

A database system is a more popular term which is a group of application programs that interact with database through DBMS and database alone. Step 2 of 2

EXAMPLES OF DATABASE SYSTEMS -

- A training institute keeps the details of the students as well as the courses offered in that institute.

Approach to Design, Implementation, and

••
The database approach
The database approach
is an improvement on
the shared file solution
as the use of a

database management
system (DBMS)

provides facilities for
querying, data security
and integrity, and

allows simultaneous
access to data by a
number of different

users. At this point we
